HUGE LOSSES SUFFERED BY THE GERMANS

Operations of French and British On All Points Successful

NUMBER OF VILLAGES TAKEN AND PRISONERS CAPTURED

Deadly Accuracy of Americans In Pouring Fire Into Huns

[ASSOCIATED PRESS TELEGRAM]
Paris, June 7.—American troops fighting on the main battlefield have gained ground on the lines of Torcy-Belleau and Boursches, west of Chateau-Thierry, the war office announced in today's statement.

West of Noyon and north of Montdidier on the Picardy area, local operations by the French were successful and prisoners were taken.

The French also recaptured hill No. 204, between the Marne and Rheims. British troops regained a footing in the village of Bligny, inflicting large losses on the enemy.

In fighting north of the Aisne, the French captured the village of Le Port, west of Fontenoy.

On the Marne front, northwest of Chateau-Thierry, French troops captured the village of Vinly.

GALLANT WORK OF AMERICANS

(Compiled from A. P. Dispatches.)

Striking the Germans northwest of Chateau-Thierry along the line where the enemy legions were launching their heaviest blows but a few days ago, American marines, fighting with French forces on either side, have pushed back the tip of the salient driven by the Germans in their rush to the Marne. They have recaptured the village of Torcy and at last accounts were disputing with the Germans the possession of the towns of Bussieres and Boursches.

The gallant work of the American "soldiers of the sea" in this advance over two miles along a front of almost three miles stand out as a heroic chapter in the story of American participation in the struggle in France. Narratives of the battle, which began Thursday afternoon, tell of the irresistible dash of the marines and the deadly accuracy of the fire they poured into the German forces opposed to them.

West of Soissons the French have taken the village of Leport, which is located on the north bank of the Aisne.

Further south, crossing the Clignon river from Gandelu, the French have recaptured the hamlet of Vinly and swept eastward toward Veully-La Poterie and driven the Germans out of a grove which they held there.

Just to the south the Americans launched their blow at the Germans and have taken extensive ground. Reports from the scene state that virtually all their objectives were gained, which would appear to indicate that the attack was not a local affair, but a part of a well-defined plan directed by the allied command.

Belleau wood, east of Torcy, was first reported cleared of Germans by the American marines, but later advice make it appear probable that the enemy was still holding out in a portion of this wooded area.

West of Chateau-Thierry, the Germans in their rush last week, occupied hill No. 204, a height which dominated the city. From this they have been ejected by the French.

On the front between the Marne river and Rheims, the British have gained a foothold in the town of Bligny, which is nine miles from Rheims, and in a sector which might become vital, should the allies attack there in force. German official statements have mentioned the arrival of allied forces in this particular region and the allied aggressive there may be linked up with the activity on the western side of the salient in consideration of what may be the initiation of a counter-offensive against the Germans.

The blows being struck at the German positions will have a tendency to prevent the Germans from recuperating before launching an attack on another sector of the front. Advice from the battle area say that three German divisions which evidently had been held in reserve, had been brought to the front to oppose the Americans.

North of the Soissons sector French troops have been active, while along the British front there has been no fighting of an unusual nature.

Allied troops not only are holding the Germans in check on both sides of the Champagne salient but American marines and French troops have thrown back the enemy to a depth of more than one mile on the sector northwest of Chateau-Thierry. Dominating positions were captured by the Franco-American forces and these enabled them to continue the advance Thursday evening when they reached the outskirts of the towns of Bussieres and Torcy.

Thursday morning the allied troops, Americans on the left and French on the right, had advanced to within 500 yards of Bussieres. Attacking again at 5 o'clock Thursday evening the Americans and French up to 1:30 p. m. had widened the (Continued on Page 2, Col. 5.)

REGISTRATION INVESTIGATION WILL BE MADE

Provost Marshal Orders a Classification Revision In Selective Service

THOUSANDS OF MEN IN CLASS FOUR ARE TO BE ADVANCED

New Arrangement Will Put 500,000 Men Into the First Class

[ASSOCIATED PRESS TELEGRAM]
Washington, June 7.—A general revision of classifications under the selective service act was started today by Provost Marshal General Crowder when he telegraphed to the governors of all states ordering investigations to determine the reason for the small number of registrants in class one in some localities.

The lists of some boards show an average far below the national average of 28.7 per cent. registrants in class one. Some boards even have fallen as low as ten per cent.

Thousands of men now in class four should be put in class one and two, the provost marshal said. The instructions also ordered investigations to determine if any men have been erroneously put in the upper classes when they should have been placed in those lower down.

It is expected that the rearrangement will bring into class one more than 500,000 men.

Cases where registrants were married after passage of the draft act will be carefully considered if the evidence warrants classification in class one, boards will proceed to re-classify them.

Married men whose wives have sustaining incomes probably will be reclassified.

"The office has reached the conclusion," said the provost marshal general, "that corrective procedure can be made most effective by revision by the local boards with the hearty and active assistance of government appeal agents and members of legal advisory boards."

"You will therefore issue instructions that they shall immediately proceed to a careful examination of all the questionnaires and records in the classes of cases herein after indicated and make such recommendations to the local boards as they may deem necessary."

"The activities of local boards appeal agents and members of legal advisory boards is not limited to the classes of cases above indicated but the same corrective measures should be applied to all other cases of deferred classification when the same appears necessary."

"Local boards should set aside a special week in June to be called class one week to conduct examinations of doubtful cases. Classifications should be scientifically adjusted now so as to avoid the necessity of proceeding to the deferred classes. The remedy is yours to apply."

"It is important also that corrective procedure should be applied where necessary case boards showing unusually higher percentages of class one. Where there are no apparent regulations for such high percentages you should make inquiry of the proper boards with a view to ascertaining whether the boards have correctly applied the regulations."

"Also instruct local boards to re-examine under the new standards of physical examination now being issued all doubtful cases which may have fallen into group B, Group C or Group D, with the particular purpose of finding men physically fit for general military service. Men who have been placed in the above mentioned groups and of removing to group C, as qualified for special and limited military service such men as may heretofore have been totally rejected or placed in the deferred remediable group."

DRAFT EVADERS ARE ROUNDED UP

[ASSOCIATED PRESS TELEGRAM]
Globe, Ariz., June 7.—Fifteen hundred men in Globe and Miami were taken into custody last night and early today by federal officers for examination to determine whether they were draft evaders. Of five hundred men taken in Globe all but fifty were able to prove that they had registered and were released. The other fifty were held in jail for further investigation.

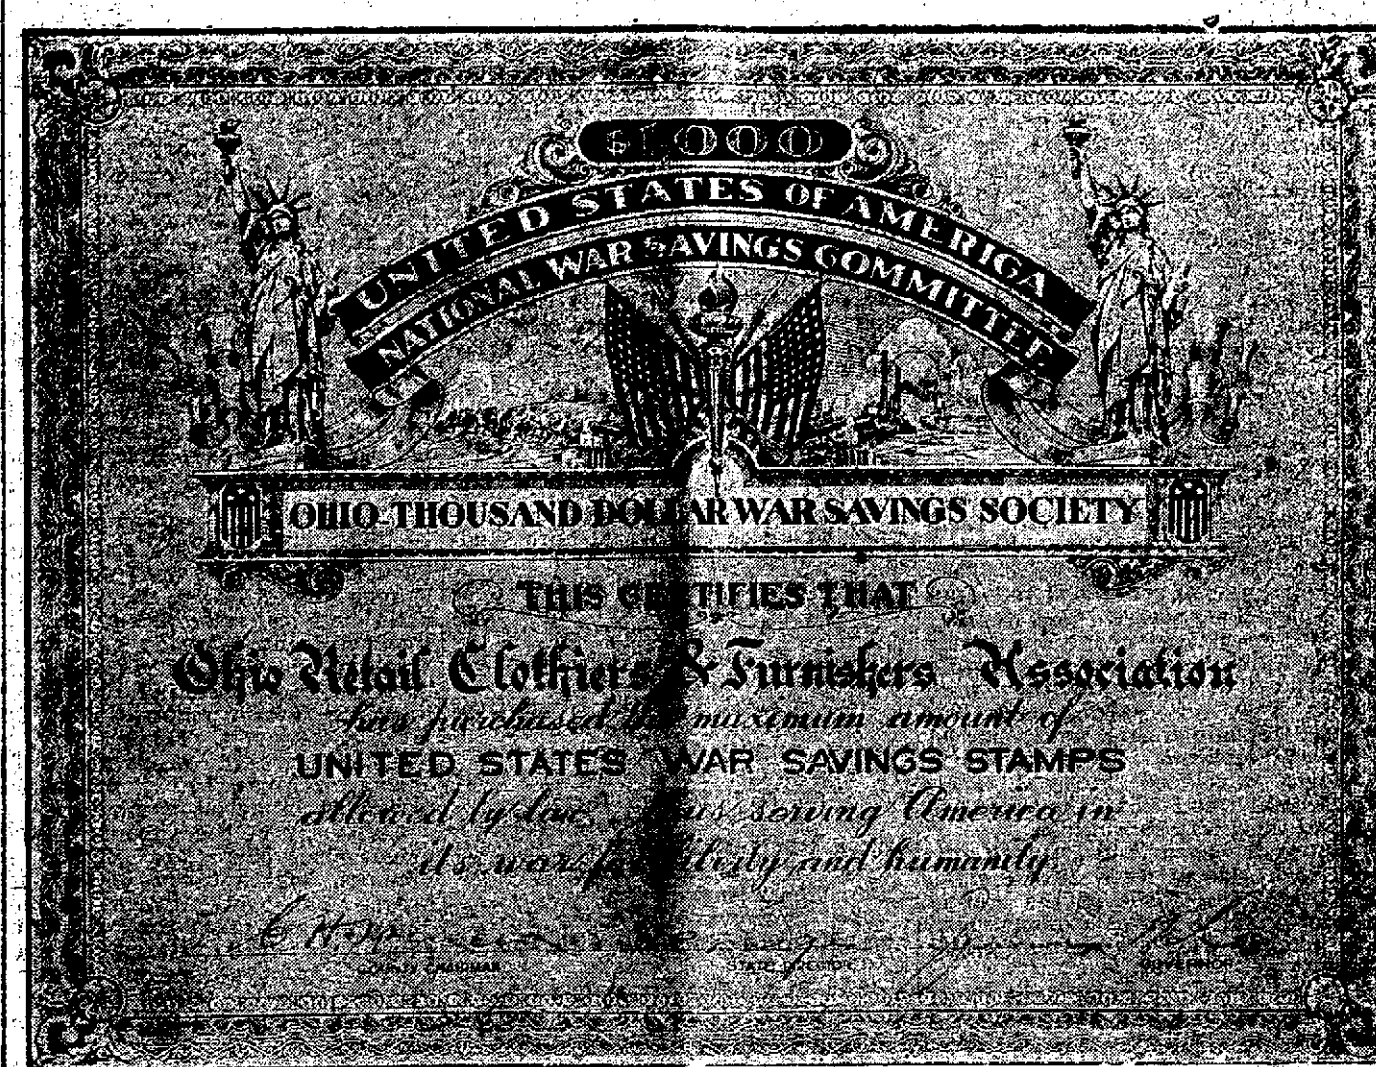

After completing the examination of the men taken in Globe the officers in charge of the round up went to Miami to examine 1,000 men held there.

WILL TAKE IN GREAT PART OF POPULATION

Toledo, June 7.—Announcement was made today by Safety Director Christopher Wall that the police will begin a crusade against war-time idlers and men engaged in non-essential occupations. It was inspired by refusal of able-bodied men to aid in loading ships. The police will list fortune-tellers, penny-arcade employees, gamblers, amateur athletes, who have no other occupation; drug-addicts and pool-room loungers.

OHIO RETAIL CLOTHIERS ON HONOR LIST

Here is a reproduction of a certificate just issued to the Ohio Retail Clothiers and Furnishers Association, of which Mr. George Hermann, of Newark, is the treasurer. It testifies to the patriotism and good business judgment of the organization in investing in War Savings. The association has "bought the limit" and is on the honor roll. Should the association need or desire the money invested in these stamps the money is available at any time upon ten days' notice. Two hundred W. S. S. in June cost \$334. On July 1st they are worth \$336. August 1st \$338 and so on. They are not taxable. The interest rate is 4.27 per cent. They will never decrease in value as Uncle Sam guarantees payment of both principal and interest. This makes W. S. S. the world's best investment today. Licking county is asked to buy \$1,236,180 worth of W. S. S. this year. That means \$4,000 worth every day. The recent War Chest drive has put Licking a little behind in the procession as total sales to date are about \$500,000.

GIRL BANDIT WITH QUARTETTE TAKEN NEAR VAN WERT, O.

[ASSOCIATED PRESS TELEGRAM]
Van Wert, O., June 7.—Two young men and a girl from Cleveland, and another young man from Toledo were arrested by Sheriff J. H. Gunsett of Van Wert and Deputy Sheriff Henry B. Wilson, three miles east of Van Wert early today, after the quartet had held up two farmers, John and Jacob Leist, at the point of revolvers, forced them to give up their money and compelling one of the farmers to take off his suit of clothes. When arrested they were resting in an automobile, which they are said to have stolen in Toledo yesterday, after abandoning another machine which they stole in Cleveland Wednesday. They are also said to have held up two farmers at Carey 10 miles north of Upper Sandusky, last evening and taken money from them.

The quartet included John Smith, aged 20, 1018 E. 78th street, Frank Myers, aged 19, West 93th street, and Florence Myers, aged 17, 11412 Magnolia Drive, all of Cleveland, and Russell Willard, 18, 636 Maywood street, Toledo. Smith is said to have served time in the Mansfield reformatory.

All four were armed with revolvers and refused to submit to arrest until the deputy sheriff fired one shot which narrowly missed one of them. From Van Wert the prisoners were taken to Delphos, Allen county, where they were arraigned before Mayor George N. Leasure on a charge of highway robbery and bound over to the Allen county grand jury. From Delphos they are to be taken to the jail at Lima.

DESTROY 60 PERCENT OF HUN SUBMARINES

[ASSOCIATED PRESS TELEGRAM]
Washington, June 7.—Senator Swanson, acting chairman of the naval committee, after a conference with navy heads today declared that the allied and American naval forces have destroyed 60 per cent of all German submarines constructed and that they have cut shipping losses in half.

QUIET ON BRITISH FRONT.

[ASSOCIATED PRESS TELEGRAM]
London, June 7.—An uneventful night along the British front is reported by the war office today. The official statement read: "A party of our troops raided a hostile post last night, northeast of Bethune, and after inflicting casualties of the garrison and capturing a machine-gun, returned without loss. There is nothing further to report from the British front."

HEAR TROOPER SCOTT TONIGHT

Trooper Scott, of the famous Anzacs, speaks tonight at 8 o'clock in the High School Auditorium on his personal experiences in the Dardanelles and in Egypt. He tells of what he saw in Belgium during the German invasion of his enlistment in England and of many interesting events of the great war. Admission is free. No collection. All are invited. Trooper Scott comes under the auspices of the Newark Rotary Club. He is a good speaker and he knows what he is talking about.

TWO OFFICERS ARE KILLED BY THEIR AIRPLANES

[ASSOCIATED PRESS TELEGRAM]
Lake Charles, La., June 7.—Lieutenants John L. Hagarty and Travers Lee Halton were killed near Gerstner field today when their airplane collided while at battle practice.

Halton was from San Antonio, Tex., and Hagarty from New Jersey.

BAKERS URGED TO CUT CONSUMPTION IN USE OF FLOUR

[ASSOCIATED PRESS TELEGRAM]
Columbus, O., June 7.—Further curtailment of the use of flour is urged on bakers of the state in a telegram received today from W. H. Campbell, Chairman of the National Bakers Service Board at Washington. The state chairman is directed to get convincing word to all bakers that the necessity for curtailing output is real and not imaginary. Bakers are urged to cut their consumption during June and July to amounts used during April and even lower.

SECOND LARGEST CROP IN HISTORY OF THE COUNTRY

Washington, June 7.—The second largest wheat crop in the history of the country is in progress for this year's harvest. The department of agriculture today forecast a total of 931,000,000 bushels of winter and spring wheat combined. That is only 69,000,000 bushels less than the billion bushel crop the government had hoped for and continuation of the ideal growing conditions such as has prevailed during the last month, might yet produce a harvest of 1,000,000,000 bushels.

Sharon, Pa., June 7.—Frank Buhl, millionaire steel manufacturer-philanthropist and long known as "Sharon's first citizen," died at his home here early today, aged 69.

GROW GRAIN TO AID THE WAR AND NOT THE BREWER

[ASSOCIATED PRESS TELEGRAM]
Columbus, June 7.—Signs reading: "Grain grown on this farm is to win the war and not for the brewer" are being put out in great numbers by the Ohio Anti-Saloon League in response to numerous requests from the agricultural districts of the state. Within the next two weeks the rural landscape will be dotted by many of these placards, it is said.

The idea originated with a rural state organization, which is attempting to meet the demand for the cards.

PROBERS PLEASED WITH PROGRESS IN AEROPLANE WORK

Dayton, June 7.—The senatorial airplane investigating committee is on a visit here today, making a tour of the aviation fields and visiting the Dayton-Whitcomb airplane company plant where 20 battleplanes a day are being turned out and shipped to France.

The committee is headed by Senator Charles S. Thomas of Colorado, and individually the members expressed their surprise and gratification over the splendid results being obtained here. They have proclaimed the Liberty motor as assuredly a success.

CANDIDATE FOR JUDGE OF THE SUPREME COURT

[ASSOCIATED PRESS TELEGRAM]
Columbus, June 7.—Judge William F. Duncan of Findlay today filed his declaration of candidacy for the Republican nomination for judge of the Supreme Court with the Secretary of State.

Former State Representative W. K. Swan of Preble county, also filed a nomination of Lieutenant governor.

Marines In Their Forward Sweep Took Ground On Either Side of Belleau Wood, Cleaned Out Ravine, Giving Them a Strong and Dominating Position, Their Total Advance Approximating Two Miles On a Three-Mile Front—Many of the Prisoners Taken, Especially Prussians Expressed Themselves As Tired of a Continuation of the War

[ASSOCIATED PRESS TELEGRAM]

With the American Forces on the Marne, June 7.—The American marines who began a second attack on the German lines late yesterday captured the village of Torcy and drove their way into Boursches northwest of Chateau-Thierry. This morning they were holding Torcy in the face of repeated counter-attacks and were pushing back the Germans through the streets of Boursches. Virtually all their objectives in this attack were attained.

The American plan did not include the taking of Torcy but the marines swept into it and drove out the Germans.

The one point where the objective was not reached was on the right of the attack in the Belleau wood. The fiercest fighting is continuing here.

There seemed reason to expect German counter-attacks in strength before long, for previous to the beginning of the afternoon attack, which began at 5 p. m. the roads behind the German lines were filled with troops, guns and wagons, but the American artillery turned on them and created havoc.

The second attack made today by American marines on German positions northwest of Chateau-Thierry early gave promise of being as successful as this morning's assault. The marines reached all their objectives set for the first hour within that time limit and pushed beyond them. The early reports indicated the Germans on the run for the time being and surrendering right and left to the Americans.

One of the toughest of all the objectives, Belleau wood, some four miles from Chateau-Thierry was swept by the marines without serious trouble.

The marines in their forward sweep took strong ground on either side of the Belleau wood and cleared out the ravine south of Torcy, which was taken this morning. This gave them a strong and dominating position for a continuation of their attack. Their total advance was approximately two miles on a three-mile front. The total number of prisoners taken was not known at this time.

Another sergeant was about to take a prisoner when the German threw himself on the ground and discharged his revolver at the American after calling "Comrade." That settled the German for the sergeant shot him, as he did four others who also had surrendered but refused to give up their hands.

Marines advancing in the Belleau wood region went forward in four waves in open formation. The men in the first wave were for the most part evening but additional captives were

ENGLAND'S KING TO PARTICIPATE IN THE CELEBRATION

London, June 7.—This year, for the first time in Anglo-American history, the king of England is going to take part in an American Fourth of July celebration. On July 4, King George has promised to attend a baseball game at Chelsea between teams representing the United States army and navy.

Great enthusiasm has been aroused in American circles in London over this signal mark of the king's favor and his interest in the welfare of the men of the American forces in this country. The king, it is declared, could have conceived of no happier way of expressing sympathy with the young men in armies from across the Atlantic.

King George knows baseball from past experience. In 1913 he was at Chelsea when the New York Giants and the Chicago White Sox played an exhibition match on their trip around the world.

HONOR PRISONER WHO WALKED AWAY SERVING IN ARMY

Columbus, June 7.—Warden Thomas of the Ohio penitentiary yesterday received a letter, written on the British army stationery in France from Michael O'Hara, Lucas county, an honor prisoner who walked away a year ago from the penitentiary stone quarries.

"If the Huns don't get me, I will be back after the war to finish my contract with Ohio," said O'Hara.

brought in after the morning attack which netted about 100 prisoners.

The Americans comprise the detachments on the left of the advancing line. After capturing a small wood shaped like the letter "S" the Americans reached the cemetery at Veully and continued to press forward slowly under a heavy fire from German machine guns. During the attack this morning at dawn the German artillery fire against the allies was feeble, but the enemy front line was well studded with machine guns. In the action this morning the Americans and French advanced one kilometre into the German lines and captured 270 prisoners including 10 officers.

Forty-five minutes after the fighting started one French regiment had attained the border of Mares wood and the edge of a triangular wood 500 yards southeast of Bussieres, notwithstanding sharp resistance. This regiment alone took more than 100 prisoners.

A notable development was the low morale of the prisoners, all of whom were Prussians. They expressed themselves as tired of the war and glad to get out of the fighting. This was despite the fact, they say, that they are furnished with food although the Saxons, the Wuertemberg troops and others may go without.

It must be imagined, however, that they did not put up a fight this morning for their officers were among them urging them on but the Marines dashed into them yelling like Indians and plying bayonets and rifle. One marine who was taking back a prisoner ran into two German officers and ten men. He tackled them single handed with his rifle and bayonet, killed both the officers and wounded seven of the men.

Another sergeant was about to take a prisoner when the German threw himself on the ground and discharged his revolver at the American after calling "Comrade." That settled the German for the sergeant shot him, as he did four others who also had surrendered but refused to give up their hands.

Marines advancing in the Belleau wood region went forward in four waves in open formation. The men in the first wave were for the most part evening but additional captives were

BELIEVE RAIDER IS AWAITING A HIGHER PRIZE

[ASSOCIATED PRESS TELEGRAM]
Washington, June 7.—Belie: that the German submarines which early in the week successfully attacked coasting schooners and steamers off the New Jersey coast are now lying in wait for larger prey in one of the trans-Atlantic travel routes off the Virginia capes was expressed in official circles here today. This theory was strengthened by the torpedoing Wednesday of the British steamship Harpathian, 100 miles off the Virginia coast, news of which was announced in navy department dispatches published today.

Having, as the Germans believed, struck fear into the hearts of Americans through depredations near the ports of New York and Philadelphia, it is probable, officials said, that the U-boat commanders have decided to make a bolder effort and despite the multitude of patrol craft engaged in the search of them, make a supreme effort with a transport of large cargo, or passenger carrying vessel as the prize.

In the torpedoing of the Harpathian the raiders struck without warning and apparently at an armed vessel. The navy department had not received word as to whether the ship was armed but expressed the opinion that it was as all British steamers plying through the war zone carry guns. The Harpathian went down within seven or eight minutes after the torpedo struck but the crew managed to get away and were landed late yesterday at a port in Chesapeake Bay.

The sinking of the Harpathian brought the total number of victims of the German raiders to fourteen—six steamers and eight schooners.

MISS MARY FULTON TO TAKE UP WORK IN FOREIGN CAMPS

Word has been received by Mr. and Mrs. J. Willis Fulton that their daughter, Miss Mary C. Fulton, had been commissioned a Y. W. C. A. secretary to France. The appointment was consummated by the national Y. W. C. A. board, located in New York City.

The French government has been begging them for efficient help along their line of work. When Miss Fulton was appealed to as the national board's choice, she put money consideration and a pleasant situation on one side and accepted the appointment.

The antiphoid serum treatment vaccination required by law, have begun to evidence themselves after everything along that line has proven satisfactory.

Miss Fulton will be home from St. Louis, probably the last of June. She is expecting four weeks to prepare for sailing at the end of that time.

SOLDIERS' LETTERS

The following letter has been received by Mr. and Mrs. Frank B. Wheeler, R. D. 6, from their son Marion Wheeler, who is stationed at Camp Wadsworth, S. C. with Co. G, 54th Infantry, regulars:

Camp Wadsworth, S. C., May 30, '18

Dear Mother:—Well, we are having an awful warm Decoration Day here.

We had the day off from 9:30 this morning. We have been transferred from the detention camp to our regular barracks. We changed yesterday afternoon, it is a better place, everything is more convenient. Just got through with my washing about half hour ago. I washed two towels, one suit underwear, three handkerchiefs, one pair socks. I had to wash in cold water, but got them pretty clean. We got so dirty and sweaty from drilling in the heat and dust. This is a sort of a dusty country down here; was changed to a different branch of service. All of us Newark boys are at Co. G, 54th Infantry regulars. We got some more junk to lug around with us. We got a Springfield rifle and a bayonet, a canteen can for water, a new mess kit, and a little tent for one man when we get out to the rifle range. I suppose we will go out for rifle practice at the range before long, so that will put me in the front line of trenches. But will do my part, no matter where they put me. Just place you where they want you and you have nothing to say about it. You just ought to see the bunch of stuff that I have to carry. It will make a man out of a person without anything else. We have to put all this on our backs and hike with it. When we go to the range it will be a sixty mile hike with our load. We walk for 50 minutes, and rest ten on the long hikes. I have a belt that holds fifty shells, when it is completed it will weigh about twenty pounds; when I get my complete outfit will have about ninety pounds to carry. Haven't got my gas mask or helmet yet, believe me it is some load. But it will make a man out of you. So it won't take Uncle Sam long to find out if you are a man or not. When you start out for a fifty mile hike. Got separated from all the boys that come with me, they are in the same company, but a different letter. Some are in Co. H, the 3rd of them, and they left Bazler at the other camp, and I haven't located the other four yet. We will drill eight hours every day here from now on. Did you get my suit case, I never heard you say anything about it. What is the matter with the people in Newark are they all dead? I think they must have died from guessing about the war. That is the least of our troubles here. All we do here is to figure on some way to beat the devil and what it takes to beat them with Uncle Sam has got it. And the Sammies are right with him. I am going to have some pictures taken soon and will send you one with my rifle and my bayonet and belt on.

I guess I will go up Sunday after

noon. We can go anywhere we want to now. We can get a pass for four or five hours, and go over to Spartenburg if we want to and see the city. But it is so awful hot would rather stay in my tent as it is cooler. Some of the boys got a pass this afternoon until 9 o'clock tonight. If you know any boys who love Newark for camp tell them to wear overalls and they will never regret it. Tell Charlie to write me a letter, would like to hear from him. I guess he is still living yet, and tell Mrs. Dumm that some of that good cake would go pretty toky now if I had it. I wrote John and Frank about two weeks ago but have no word from either yet. I am getting anxious for that box Frank was going to send me, and I told John to send me a fountain pen for that suit. Send it to him as soon as you can. Did Dot and Anna get their cards? Well I guess I will write for this time. Going for a bath very shortly now. I am as ever your son, Orville, with love to all.

I am well and feel very good, hope this finds you all the same.

Private Marion O. Wheeler, Co. G, 54th Inf., Regulars, Camp Sherman, S. C. If you ever send me a cake wrap it in a damp cloth.

The following letter was received from Hendricks Carpenter, son of Mrs. Edward Brink, of Utica, who is stationed at Camp Mills, Hempstead, Long Island, N. Y.

Camp Mills, N. Y., May 31, 1918.

Dear Mother and Ed.—We left Camp Sherman Wednesday morning, May 29th and arrived at Pembroke, 3:45 p. m., Clarksburg 5:30, Bridgeport 6:00, Grafton 6:30. We got off and marched to the square and back to train. We had 14 coaches. I was put on guard at 10 o'clock. It was in the mountains and I was relieved one hour later. Went to bed at 11. They were all Pullman coaches and a good place to sleep. When I awoke we were in Capital View, Maryland and still going. The engines took water on the fly, we stopped at Washington, D. C., marched through Camp Meigs. Left Washington at 9 a. m., arrived at Baltimore 11 a. m. We went through a tunnel under Chesapeake bay and across the river, arrived at Wilmington, Delaware, 1 p. m. I was on guard again an hour, guarding the front end of the second coach. Arrived at Philadelphia, Pa., at 2 p. m. and from there on into New York city. We took boat and passed under Brooklyn bridge and also under the Manhattan bridge. It was not dark yet when we got here on Long Island. There is 80,000 in camp here. It is also an aviation camp. None of us knew where we were going until we got here. My eye is just the same it does not hurt any but I can not see any better than I did. I am feeling good and it was a fine trip. Don't worry—Hendricks Carpenter.

Editor of the Advocate—I beg to acknowledge with thanks the receipt of the medal, and wish to thank you and all the Licking county citizens. Respectfully,

Peter C. Baruxas,

Supply School, Co. E, Ordinance Training Camp, Camp Hancock, Augusta, Ga.

Editor of the Advocate:—I received the medal which you sent me. I wish to thank you for it. I certainly appreciate it and the purpose for which it was given. All of my pals think it is fine and I have not seen anyone else having a medal like it. It is certainly fine that the people of Licking county show their appreciation of work that the young men of the county are helping to do in their own small way. I like the life at the training station and I am enjoying it, although at present I am recovering from a case of mumps. I have finally reached the radio school and so I will not be on the island long.

This life is strenuous but it will make a man out of any lad who enlists. We get up, eat and do everything at regular hours and that makes us physically hard, so we can stand the hard life of a soldier. This training station is on an island in Narragansette bay and there is some fine scenery around here. In the evening the water is beautiful and it appears to be golden in the sunlight. All around the bay are beautiful homes of the rich. For which Newport is famed. All the buildings on the island are well built and the barracks are brick buildings. These brick buildings however do not house all of the men and many of them are housed in shacks or bunk houses. In your letter I noted that you desired the names of Licking county men in service who have not received medals. Wm. Bliss, 3rd Reg. 2nd Co., Newport, R. I. has received no medal and he greatly desires one. Thanking you again for the medal, I remain, Yours truly,

Geo. Marshall Ditter,

Third Reg., 1 Com, Newport, R. I.

URGENT LOAN WORKERS TO BOOST WAR STAMPS

Washington, June 7.—Liberty loan workers were asked by Secretary McAdoo to do all in their power to make a success of National War Savings day, Friday, June 28, when the campaign to obtain pledges from every American to economize and purchase war savings stamps will close.

"I earnestly desire," said Mr. McAdoo in a letter to loan organizations, "that liberty loan workers shall render all assistance possible to war savings committees in this campaign. The more thoroughly the necessity for individual saving and economy is brought home to the people of the nation, the easier will be our work in future liberty bond issues, the more quickly and adequately can the army and navy be equipped and the more certain will be the future welfare and prosperity of our people."

All visiting Knights welcome.

MINISTERS REMARKS CAUSE DEMAND FOR RESIGNATION

Coshocton, O., June 7.—For denouncing the war chest campaign, the resignation of the Rev. G. H. Hoffmann, pastor of the Plainfield Methodist Episcopal church, has been demanded by his congregation. Last Sunday all but 15 members of the congregation left the church while he denounced not only the war chest but some of the patriotic organizations which will receive money from it. At the Sunday evening service, only three attended, one of whom was the junior an danother was the son of the pastor.

Most things go to extreme. The way of the transgressor, for instance, is either hard or dead easy.

I NEVER MISS A SINGLE MEAL NOW

Newark Man Expresses Regret That He Did Not Know of Tanlac Long Ago.

The record: Tanlac is making throughout the country is most sensational. Both men and women clamor for an opportunity to extend the usefulness of the Master Medicine. Homer Trunnell, living at 109 Jackson street, Newark, is one of them.

He continues as follows: "I was in a run-down condition for a long time. I didn't sleep good and hadn't any appetite. The least little exertion tired me out. I had bad headaches, my back hurt me and I was awfully nervous, too. I lost interest in everything, too, and could not see the bright side of life."

"Tanlac helped me wonderfully. I'm like being made over. I had my appetite back in a few days, and am making up for lost time. I can say that Tanlac helped my back right away. I never lost an hour's sleep any night and wake up full of vim my work's like play now."

"I am sorry I did not know of Tanlac long ago."

Tanlac remedies are being introduced in Newark at Erman's Arcade Drug store. Tanlac may also be procured at the Evans pharmacy (Warden Hotel block, east side square, Newark), and the Hebron Drug store, Hebron, O.—(Adv.)

AMERICANS HAVE STRONG NERVES

Nervousness and Nerve Troubles on the Decline

"Nothing wrong but your nerves," is a saying that is fast dying out in this country. While nerve trouble is no organic disease, one of our leading nerve specialists remarked: "A man or woman might better break a leg than have a shattered nervous system."

Overwork and worry drains the nerve cells of their reserve strength and food, and then follows the sleepless night, indigestion, poor appetite, impure blood and general nervous breakdown.

The thing to do in such cases no longer troubles doctors and their patients who know from their own experience the value of Phosphated Iron. They know that a few weeks' regular use of this nerve food and red blood builder will strengthen and brace up the whole nervous system, because Phosphated Iron gives the tired, hungry, worn-out nerve cells phosphates and iron in a form easily and quickly absorbed; as one happy user said: "You can almost feel it taking hold of the nerves and blood, after a short time you feel like a new person; life seems a pleasure and work living once again."

In every section where Phosphated Iron has been used, there has been a big decrease of nerve troubles and it will prove a welcome relief to any sufferer. You can bank on it for results—it's pure.

To insure physicians and their patients getting the genuine Phosphated Iron we have put up in capsules only, do not take pills or tablets. Insist on capsules.

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulitised coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

WALTER HOPKINS RECEIVES HONOR FOR BRAVE WORK

(By Walter L. Hopkins)
Somewhere in France, May 9.—I am very proud of the fact that our section has just been signally honored by the general of the French army corps, having received "citation," the first received by any section since America entered the big war.

The general of the army corps to which we are attached and the general of our division came over with a lot of high officials and the boys all lined up and got shined up on 10 minutes' notice. Here is a translation from the French of order No. 171:

"The general commanding the 33rd army corps cites with the order of the army corps:
"Section Sanitaire American (S. S. U. 523), commanded by Lieutenant Motte and Lieutenant Butkiewicz, during the violent fighting at N— and Mt. R— from March 25 to April 8, 1918, assured the evacuation of the wounded in perfect manner, under the most violent bombardment with an absolute contempt for danger and the highest consciousness of duty. (Signed) Lecomte, "Commandant de trente troisieme Corps d'Armee."

Let me modestly say that an army corps citation is nothing at all to be sneezed at. The old general pinned the citation on both lieutenants and we got a nice big Croix de Guerre painted on the side of each car. Am certainly glad that I had a car during all the attack. It is battered up a bit, but there's still plenty of room left on it for that.

Army corps citation means a golden star. The best part of it was that it was requested for us by the infantry. In a day or two each car will have a facsimile of a Croix de Guerre with golden star, painted on it, which will look decidedly neat I imagine. Just after we got the citation, another attack was made on a part of our sector. I was assigned to the post right back of where the attack was launched and three cars were kept going steadily all day and night and the road was certainly a mess the next day. In one particular spot there was a shell-hole which stretched nearly the way across the road and which required going down in a mud-hole and around a tree to avoid. The night was so dark you could hardly see your hand in front of your face. Two of the cars ran into this particular shell-hole and one had to be left until the next morning when things had quieted down a bit, and about 10 men lifted it out. They can ridicule the Ford all they want to but any other larger car would have had some little time dodging the holes that day. Truthfully, now that it's over, that was the worst day and night I have ever spent and will make good telling when I get back. We had two men gassed that day and they are in the hospital now. It was thought that they were rather serious at first, but the latest reports say that they are getting along well. One of them was Ray Summers from Syracuse.

The boche sprung another attack (in a way small, although it didn't seem that way at the time) a few days ago. I think it was about the worst day we have had yet, at least it was the worst day and night I ever spent. We evacuated all day from a post which formerly we only went to in the daytime. He shot over considerable gas during the day and we had two men gassed. They are laid up in the hospital now, but understand now they are getting along fairly well and will pull through. We had three cars kept going constantly from one post all day—one car alternating at a post a little farther back. Coming back to post in the evening just at dark. I had the great experience for the first time of having a boche aviator follow us and turn his machine-gun on us—without any harm though. But the night was the worst part of the whole lot. Never saw such a dark night in my life, "and that ain't all." But that night is over now and there were a lot of things which seemed funny the next day when things quieted down a bit. It has been a wonderful experience, the whole thing.

Walter Hopkins, son of the late Walton B. Hopkins of Newark, has been driving an ambulance in France for several months and has been in the midst of heavy fighting. Mr. Hopkins formerly lived in Hudson avenue and at the corner of Church and Fifth streets, Newark.

No, Maude, dear, in a poker game it isn't considered quite ethical to lend a hand.

SCOFFERS AND DOUBTERS

Why Let Prejudice Bind you to a Life of Rheumatic Torture.

Be fair to yourself, you suffer from rheumatism, no matter what form. Go to T. J. Evans or any good druggist and get a package of Rheuma, the guaranteed prescription. Use the entire bottle, and if you don't think it has given you quick and sure relief, say so, and you can have your money back.

Isn't that a fair offer? Can you see any deceit or red tape about it? What chance do you take? Absolutely none.

Then get a bottle of Rheuma today. It's a reputable physician's prescription, altogether different from remedies usually prescribed, free from narcotics, and perfectly harmless. Rheuma acts on the kidneys and helps to force the uric acid from the swollen joints and other troubling places. It pleases you in a day; it makes you hopeful and happy in a week. It has released from bondage rheumatic sufferers who thought nothing would give relief. It should do as much for you—it seldom fails.

Don't miss this money-back offer. A large bottle, sufficient for two weeks' treatment, is inexpensive.

ALEXANDRIA.
Mrs. Jud Stinchcomb and little daughter, who have been spending several weeks with Aunt Stinchcomb at Camp Monticomey, A. L. returned last week to make her home with her parents, Mr. and Mrs. L. L. Taylor, indefinitely.

Mrs. Ernest Bonthorne, Mr. and Mrs. Jacob Spier, of Columbus were guests of M. C. Hamilton and family, Decatur, Ga.

Mr. and Mrs. Almer Rose met with a peculiar accident on Tuesday of last week while returning from a picnic at Kirkersville, W. Va. The party, a nice strip of road just south of the Gaffield school house, south of town, their machine slipped suddenly to the east and turned turtle, the occupants under the machine. They managed to crawl out but were badly bruised and luckily no bones broken. Elmer Williams and Mr. Adams, working in a field near by, ran to their assistance. They were taken to the Williams home and cared for, and then taken to their home. The machine was taken to the garage.

Mrs. Francis Courson of Newark was a weekend guest of her sister, Mrs. Berta Orr.

Dr. Fred Priest and wife, and Mrs. J. S. Ayres of Newark were guests of Mr. and Mrs. H. C. Rowman on Wednesday of last week.

Mrs. Flora Crismon of Appleton is visiting her sister, Mrs. Art Myers.

his thanks and appreciation of Dr.
J. T. Lewis for his highly efficient
services in handling the auto feature,
and to all who donated the use of au-
tomobiles, ambulances and trucks,
free of charge, for use on Memorial
Day. The auto feature added very
much to the success of the occasion.
Matthew Bausch, Chairman Transpor-
tation Committee.

Back From Trip.
Atty. and Mrs. Fletcher S. Scott
returned this morning from a short
wedding trip by auto through the
northwestern part of the state and
are now at home in the Mr. Vernon
road where the well known young at-
torney is engaged in raising garden
chickens and Belgian hares. He
states however, that his farming as-
pirations will not interfere with the
practice of law.

Has Arrived Safely.
Mr. and Mrs. Peter Welsh of
Pittsburgh, Pa., formerly of Newark,
received a card from their son, Ser-
geant Carl Welsh of his safe arrival
in France.

**93 MORE MEN ARE
CALLED FOR JUNE
TO JOIN COLORS**

Under call 666, for which Ohio is
asked to furnish 8,000 men during
the five days' period, beginning June
24, Newark is to furnish 52 men and
the county 41, according to instruc-
tions received by the city and county
draft boards today. The call is
for white men, physically fit for gen-
eral military service only, and they
will be sent to Camp Sherman.

Just because a man goes to ex-
tremes it isn't necessary for him to
burn the candle at both ends.

BIG W. S. S. SALE AT A ZANESVILLE PATRIOTIC MEET

At a patriotic meeting in Zanes-
ville last night, \$110,400 worth of
War Savings stamps were sold in a
few minutes among the 450 business
men present.

No subscription for more than
\$834 was received. That is the June
price of 200 W. S. S. and no one
person, firm or corporation is allow-
ed to own more than 200 stamps.
The Zanesville meeting was ad-
dressed by Governor Cox, Colonel
Bassell of Columbus, and Lieutenant
Fletcher of the British army.

The sale of War Savings stamps
in Licking county totals a little less
than a half million dollars to date.
The only way by which the county
will reach its quota of \$1,236,180 for
the year is for those who are able
to become members of the \$1000
War Savings society by buying 200
stamps, the June price of which is
\$834. The stamps pay 4.27 per cent
interest; are not taxable; never de-
crease in value, and are redeemable
upon 10 days' notice at their cost
value, plus interest.

GREAT RESULTS ACCOMPLISHED BY THE SELECTIVE LAW

Governor James M. Cox is in re-
ceipt of a telegram from the provost
marshal general expressing the great
appreciation of the nation for the
valuable and patriotic service rendered
by all those engaged in the ex-
ecution of the selective service law.
One year ago occurred the first
registration for military purposes of
the manhood of the nation and ten
million men responded to the call in
a single day. The task of classifying
the mass of man power was entrusted
to 4,663 local boards and 150 dis-
trict boards, constituting a force of
nearly 15,000 leading citizens of
every community. These men were
assisted by more than 100,000 patri-
otic volunteers and they have per-
formed a work that challenges the
attention and admiration of the en-
tire nation.

The millions of men have been
classified in such a manner that the
nation may call for them to come for-
ward into the army upon short notice.
The results could not have been
accomplished except through the de-
voted and unselfish labor of patriots.
The local and district boards have
shown an unprecedented triumph and
have earned the undying gratitude
of the nation. Up to June 1, a
grand total of 1,595,708 have been
inducted into the service.

Compensated poorly, if at all, the
boards have labored incessantly
throughout the unrelenting heat of
last summer to find a still greater
task awaiting them throughout the
rigors of the following winter. Then
having accomplished the classifica-
tion of the men, they found them-
selves confronted with the mobiliza-
tion of millions and accurately and
promptly have and are performing
this labor.

The boards are now speedily class-
ifying the new registrants, that have
attained the age of 21 since last reg-
istration day, and the first of next
month they will be invested with the
still further responsibility of pre-
venting idleness or unproductive em-
ployment.

The splendid work of the local and
district boards has filled the nation
with the greatest admiration. They
have been tried and found true and
so long as the war lasts our people
are happy in the complete assurance
that this great organization will not
fail the nation.

WOMEN CHARGED WITH VIOLATION OF FOOD LAWS

Two women were taken in charge
by Federal Food Inspector Putnam of
Columbus this morning, and taken
before Mayor Atherton where they
were given a straight talk regarding
the violation of government food
laws and the penalties which would
be imposed should it happen again.

The women are charged with hav-
ing gone into the country and pur-
chased wheat of a farmer, after
which they took it to a local mill
and had it exchanged for flour, the
miller believing them to be country
women, the farmer being exempt
from the operation of the govern-
ment grain clause for the reason
that he raises his own wheat.

The women were reprimanded and
informed that a repetition of the of-
fense or any violation of the food
laws would mean the imposition of
a severe sentence in the future.

LABOR FOR HARVEST

Harvest time is growing nearer
each day. Last of next week some
clover hay will be made and wheat
promises to be here by the 25th of
June. No doubt many farmers will
want some extra help. Farm labor is
scarce and much that is available is
not what some farmers consider ef-
ficient, but in spite of these things
more help will be needed through-
out harvest.

There are in Newark a great many
men who have worked on farms some
time in their lives, and if I know
some time in advance when and
where this help is needed, together
with wages to be paid, it is quite
probable that I can secure some farm
hands.

Do not wait until you need this
help before calling this office. But
call at once, stating number of men
needed and price you are willing to
pay.
L. L. Mowls,
County Agricultural Agent.

WELSH HILLS.
On Decision day at the church
here, twelve persons decided to fol-
low their saviour in the ordinance
of baptism and become members of
the church. The baptism will take
place in the Granville church on
Sunday afternoon, June 9th at 2:30
o'clock, conducted by Rev. Bunyan
Spencer. Everybody welcome to at-
tend this service.
Thomas Keller and sister Marg-
rite of near Newark attended
church services here Sunday.
Mr. White, who has been pastor
of the church here for the past year,

preached his farewell sermon last
Sunday morning. He has been very
faithful to the church and his labor
has not been in vain, as there has
been a steady growth in the church.
His many friends here, wish him suc-
cess in the field of labor, which he
expects to enter after his graduation
which will occur on June 12.

Miss May Lamp of Newark is
spending the week with her cousin
Miss Hazel Hottinger.

Children's day exercises were held
at the church Sunday evening. The
program consisting of patriotic songs,
and exercises by the children were

rendered. The church was filled
with an appreciative audience.

Rev. Lusk who has recently locat-
ed in Sharon Valley, has been called
and has accepted the pastorate of the
church. There will only be morning
services next Sunday, as the baptiz-
ing will be in the afternoon, after
next Sunday there will be services
both morning and evening.

Owing to failing health Mr. A. W.
Claggett has sold his farm to his son
Ira Claggett of Newark. Both fam-
ilies expect to move next week.

Mr. and Mrs. Homer Price enter-
tained the following guests after

church Sunday: Mr. and Mrs. Oscar
Osburn and son Harold, Mrs. Carey
Evans and daughters, Emily and Mr.
White.

Mrs. Archie Hankinson and chil-
dren, returned home from Kenton the
first of the week, her brother Law-
rence Jones accompanied her.

Mrs. Martha Evans who spent the
winter in Granville, with her sister,
Mrs. Cyrus Evans is now at the home
of her son, Carey Evans.

The friends of Miss Grace Bishop,
were very glad to see her able to
walk and attend the children's meet-
ing Sunday evening.

The Summer Season Calls for Dainty Muslin Underwear

The sheer waists and summer dresses of the present fashion make attractive undergarments a necessity.

There are the pretty camisoles in flesh satin or crepe-de-chine, trimmed with lace tops, and ribbon bands. Envelope chemise in flesh crepe-de-chine or sheer white muslins. Handsome gowns in Japanese crepe or fine muslins, and fine petticoats with wide flounces of lace and insertion or sheer embroideries, with inserts of delicate colored ribbons with large rosettes for a finish.

It Is Not Necessary

To be extravagant in order to have pretty underwear, as will be seen if you come in Saturday and look through the special values in muslin underwear.

Unusually Good garments 75c ea.

And so many of them gowns, skirts, drawers and combinations, nice quality materials, made in pretty styles with lace and embroidery trimmings.

Envelope Chemise 59c & 68c ea.

This popular summer garment is shown in a splendid assortment. The use of lace, embroideries and ribbon form many pretty yoke trimmings.

TROOPER SCOTT SPEAKS AT THE NEWARK HIGH SCHOOL THIS EVENING AT 8 O'CLOCK

HERBERT H. SCOTT

Trooper Scott, the first representative of the famous Anzacs to visit Newark, will speak at the high school auditorium at 8 o'clock tonight, under auspices of the Rotary club. Admission free. He has been secured for the vitalizing effect of his presence which can be guaranteed to act like an electric shock to all who see and hear him.

Trooper Scott is 27 years of age, and a native of Dunedin, New Zealand. He is an engineer by profession and was working on a big contract in Brussels at the outbreak of the war. He witnessed the dramatic entrance of the Prussian hordes into that city and for two solid days saw the tremendous columns march uninterruptedly through the streets of Belgium's capital.

QUICK ACTION SAVES LAD FROM DEADLY BITE

Robert Graesser, aged 11 years, oldest son of Mr. and Mrs. Geo. Graesser of East Church street, had a narrow escape from death Monday, at noon, when he was bitten by a copperhead snake on the Kibler farm southwest of the city.

Robert in company with eleven other boys of the same age left for camp with their scoutmaster, Rev. L.

P. Franklin. Arriving at the camp the boys were instructed in erecting tents, building fires and preparing refrigerators for their provisions.

The young lad went to a nearby stump which was decayed at the bottom and the hole had filled with leaves. He reached in to scrape out the debris which had gathered when a copperhead snake in hiding there struck him in the right wrist. The lad immediately ran to the tent and Rev. Franklin placed a tourniquet above the arm. He then painted the place where the fangs had struck with iodine and dissolved cyanide of potassium in water and using a hypodermic needle injected it between the two fang marks. It started counter-acting immediately and reached the poison venom but did not prevent the young lad from suffering much pain. He was brought to town in the Franklin machine and taken to his home where his arm was swollen to the shoulder.

Although still badly swollen the arm had improved to the extent that the lad insisted upon returning to camp this morning and was taken out to the Kibler cottage by Mr. Franklin. He is still feeling the effects of the bite but states that he will give all stumps and decayed logs a wide berth in the future.

PEN CHAPLAIN APPEALS FOR READING MATTER FOR THE WARDS OF OHIO

Editor of The Advocate: Dear Sir: I wish to call your attention to the needs of the inmates of this institution in the line of reading material. You no doubt are aware of the method now in vogue, that of sending men and women out into the world better than when they came here. In order to do this I am convinced no better results can be obtained than by keeping them supplied with good reading matter, such as magazines and other material along that line. I feel that it is the duty of society to co-operate, for they should be concerned as to the future of these unfortunate.

Therefore I appeal to you. Will you kindly through the columns of your paper, advise anyone having magazines and papers to box or barrel them up and send them here for the prisoners to read.

I will pay all freight charges (but not express). Trusting that you will aid me in this worthy cause, I am, yours very truly, T. O. Reid, Chaplain, Ohio State Penitentiary, Columbus, Ohio.

URGENT APPEAL TO YOUNG WOMEN FROM RED CROSS

What are YOU doing? An appeal to every young woman of Newark comes from the local chapter of the Red Cross to give their services in helping to make the surgical dressing at the Red Cross rooms in Hudson avenue. The appeal should be answered by every young woman in the city—the business girls as well as the college girls home for their vacation.

Your services will be greatly appreciated, and who knows but that the bandage you make will be received by one of our own Newark boys. While your brothers, cousins and friends are giving so much—their lives if need be—what are you doing, young woman of Newark?

If you are a business girl the rooms are open every Tuesday and Thursday evenings and you can offer your services during these evening. To the other girls the rooms are open every afternoon during the week. Come, and help save some soldiers' life by making surgical dressings.

VIGOROUS MEN AND WOMEN ARE IN DEMAND

If your ambition has left you, your happiness has gone forever unless you take advantage of T. J. Evans' magnificent offer to refund your money on the first box purchased if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost.

Be ambitious, be strong, be vigorous. Bring the ruddy glow of health to your cheeks and the right sparkle that denotes perfect manhood and womanhood to your eyes.

Wendell's Ambition Pills, the great nerve tonic, are splendid for that tired feeling, nervous troubles, poor blood, headaches, neuralgia, restlessness, trembling, nervous prostration, mental depression, loss of appetite and kidney or liver complaint.

You take them with this understanding that: In two days you will feel better. In a week you will feel fine, and after taking one box you will have your old-time confidence and ambition or the druggist will refund the price of the box.

Be sure and get a 50-cent box today and get out of the rut. Remember T. J. Evans and dealers everywhere are authorized to guarantee them. 5-7-17-28

A man's good intentions resemble an alarm clock. They don't always go off.

To insure prompt service during these strenuous war times, any orders for home delivery of ice cream by these companies on Sundays or holidays must be left at our office not later than 9 p. m. of the evening of the day preceding such Sunday or holiday.

Owing to lack of experienced help and our inability to secure additional equipment we cannot insure prompt delivery and the satisfactory kind of service which we desire to render, for orders received after that hour.

BOARD MEMBER IS ON TRIAL FOR DISLOYALTY

Toledo, June 7.—The trial of Amos L. Hitchcock, socialist member of the Cleveland board of education, indicted recently on three counts in Federal court, will begin here today. Hitchcock is accused of disloyal utterances in a speech in Sandusky last April in which, it is alleged he said in substance that every dollar paid for third Liberty loan bonds would find its way into the pockets of profiteers.

Why the Allies Are Confident Of Winning the War

German apathy at home over the new drive, and the calm confidence of the Allied peoples in the face of reverse, both have one explanation. In the race between Hindenburg and President Wilson—to use Lloyd George's crisp characterization of the battle of the Western Front—the odds are running every day, increasingly against the German. When the British Premier adds that "those who know best what the prospects are feel most confident about the result," he can only mean, notes the Omaha World-Herald, that "the United States is winning the race."

Allied shipyards are launching ships faster than German U-boats can destroy them; Allied navies are sinking U-boats faster than Germany can build them; Allied crops are promising record harvests in France and England that will release further tonnage to carry American men and munitions to the battlefield. At the same time for Germany, many observers believe, another year of war will spell bankruptcy alike as to her food supply, her finances, and her manpower. Hence the German thrust against the Aisne front is interpreted in Washington as another attempt to smash through the Allied armies to victory before American troops arrive in such force as to make a German victory impossible.

Read "The Digest" for Impartial Information on the Conduct of the War

The great war, the one subject uppermost in all our minds, has many angles and side issues. Democracies, even when engaged in a life and death struggle, are essentially vocal. They love to air their troubles and the papers here and abroad are full of questionings, of investigations, and of criticisms of governmental efforts. How can you learn the truth in such cases, when the journals reporting the events are largely partisan? The answer is simple. Read "THE LITERARY DIGEST," which presents the facts as gathered from all sources, with absolute impartiality and a single eye to the correct information of its readers. It provides you with all shades of opinion and makes you both judge and jury. Begin reading it to-day and keep accurately informed on the war and all other issues.

Tried Famous Family Tonic First in Chester, W. Va., With Happy Results.

Distance and consequent high parcel-postage or expressage make no difference to the man or woman who has tried Nerv-Worth for ills of nervous origin or having nervous complications. When Nerv-Worth cannot be obtained at home or at nearby points such persons take steps to get the remedy from far-away points or from Nerv-Worth headquarters in Zanesville.

This is what a woman resident of Drumright, Okla., wrote a few days ago to the Nerv-Worth druggist at East Liverpool, O.:

"C. T. Larkins—I am sending you a stamped addressed envelope. Will you please write to me and tell me if you can send me a bottle of Nerv-Worth." Remarkable that she had not been able to get the remedy at home she went on:

"I lived in Chester, W. Va., and I took every other kind of medicine ever heard of and none of them did me any good. I took one bottle of Nerv-Worth and it did SO MUCH GOOD."

Nerv-Worth history is full of such cases. The benefited Nerv-Worth user "will take no substitute."

AUDITORIUM.

Auditorium picture fans today and tomorrow are promised another treat in the showing of "The Trouble Buster," a Paramount picture in which feature "The Studio Girl" in which Constance Talmadge is starred, together with a most pleasing cast. The story tells how Celia Laird is to marry the village idiot, Obadiah Daw, much against her wishes, but in accordance with the plans of her two old maid aunts with whom she lives. A young artist, Frazer Ordway, arrives in the village to recuperate. Celia falls in love with him and decides at any cost to escape a loveless marriage.

GRAND.

J. Warren Kerrigan, the new Paralta star, will make his first appearance in this city at the head of his own company at the Grand theatre tonight in "A Man's Man."

The dramatic action of this photo-melodrama is as fast as the flash of a rapid-fire gun. From the first flash of the screen of the water tank station in the Arizona desert, where the mining engineer just out from Death Valley takes the train to civilization, to the final picture in far off Sobrante in Central America, there is not a foot of film that does not show a situation of most intense dramatic interest. "A Man's Man" is a genuine, red-blooded, thrilling melo-drama, possessing all that virility of story and character that holds the attention of an audience from start to finish.

SAVING GASOLINE.

The government has been urging all owners and drivers of motor cars and trucks to save all the gasoline possible. It is all going to be needed to supply the army. Unless consumption is reduced, a further advance in price seems probable.

One way in which a great many people could save it, is by driving less powerful cars. There are a great many people who can't seem to satisfy themselves unless they operate great machines with engines of 60 to 990 horse power. They may use these cars over good roads and moderate grades. A lighter car with a horse power of 30 to 40 would seemingly meet all practical wants.

These people want a car that will take a steep hill with but little diminution of speed. Driving a slow car over those grades seem to them like whipping a jade horse. They want to get there at the earliest possible moment. Then after they get there, they immediately want to turn around and come back again.

A great many people seem to find the light cars with moderate horse power satisfactory, and they never get stuck either.

It is hard to see where all the gasoline that will be needed is to come from. The substitutes which have been so loudly proclaimed do not seem to come into general use. Hopes have been entertained of benzole (benzene) but the supply is insufficient. It is claimed that mixture of 25 per cent gasoline, 25 per cent benzole, and 50 per cent alcohol would work in motors as now constructed. But while motor fuel remains at its present price, it is an indication that available fuels are too scarce, and should be conserved in all possible ways.

GRADUATION CEREMONIES.

Formerly school graduating exercises were stiff and formal. In many schools every graduate was given an essay or oration even though it was a large class. The audience applauded when it did not fall asleep.

High sounding subjects were chosen. "Over the Alps lies Italy," "Knowledge is Power," were two favorites dragged out over and over. The graduates revelled in sentimental abstractions. The exercises were very long, but admiring relatives can stand a lot.

In the modern graduation program subjects of ordinary daily life are more favored. Addresses by prominent educators sometimes take the place of the old time graduating essay. It is doubtful if such addresses are so popular among parents and friends as the essays by the graduates, if these are brief and not too numerous. The public likes to see its young folks perform, so that it may find if it is getting the worth of its money.

Some people conscientiously object to war, and others conscientiously object to having people around enjoying the blessings of free government who won't do anything to maintain it.

Now the Germans have got a transport with some wounded men, which must have given them almost as much satisfaction as getting women and children.

The Socialists claim they must have free speech to defend the German government which denies all freedom.

The modern sophisticated kid is willing to take the old folks to the circus if they insist on going.

INEXPERIENCED HELP.

All classes of employers are now up against the problem of working in a lot of inexperienced help. Two million men have left their jobs to serve in army. Another million will leave soon. These places must all be filled. Green hands are everywhere trying to learn new tasks. Employers and foremen lose patience. They sometimes say it is useless to put on inexperienced help, because it takes so much time to show them.

Farmers have often been reluctant to put on inexperienced help. They say that farming is skilled labor, and that it takes more time to show a high school boy or a recruit from the cities, than the work they can do is worth.

No man ever makes a big success unless he is willing to put on and break in new helpers as needed. If he and his managers try to attend to all details themselves, because it is easier than to teach subordinates, they can never do any very large business. The details will be well done, but they will get no quantity production. They simply must train in good helpers, at the cost of both time and effort, so that their own minds and time can be free to grasp the big problems.

We are now getting a large output in the shipyards. It was mostly done with green help that a year ago knew nothing about ships. Similarly in all parts of the munition business. Breaking in a lot of raw help makes the work slow for a time. But we can secure no big national output without it. Our business men and farmers must patiently give their time to it.

The new help takes up new tasks quicker than one could expect. They all want to learn, they are trying hard, and in a few weeks can go it much alone. So let not the farmer turn down with such scorn the students and others who offer for the first time to wield the hoe.

1,000,000 of our boys in the trench line by July 4, but then the Kaiser has told his faithful people that the Americans will all run home as soon as Bill says Shoo Fly.

It is not clear in some of the co-educational institutes (whether the dressmakers or the ball team is contributing the more to a successful graduation.

The make-up girls observe the peach blossom season all the year around now.

MISS STOKES' SENTENCE.

(Philadelphia Record.)

The sentence of 10 years imposed upon Mrs. Rose Pastor Stokes may seem severe to many, but it is to be viewed as an exemplary punishment, intended to admonish others of the seriousness of the offense of seeking to undermine confidence in the government at a time when it is fighting for its very existence. A fine, even the maximum of \$10,000 allowed by the law, for Mrs. Stokes' husband is reputed to be a millionaire, and payment would have involved no hardship. If she goes to jail, as she undoubtedly will, the majesty of the law, as no respecter of persons, no matter how highly placed or how wealthy, will be vindicated in impressive fashion.

There should be no mawkish sympathy for Mrs. Stokes in the trouble which she has brought upon herself. She came to this country a poor Russian girl, whose parents had been shamefully persecuted in the land of the czar. Here the door of opportunity was opened to her, and she entered in, finally contracting a marriage which gave her a home of comfort and opulence. It is to her credit that under these circumstances she retained her warm sympathy for her former fellow-workers, and sought in every way to improve their conditions in life. It is not to her credit that, with her horizon broadened, she still clings to the errors of the professional Socialist and became "a peripatetic tender of state sedition," to use the stinging words once applied to Disraeli to a political opponent. She deliberately sinned against the light. When she went tapping about the country, charging that the government was under the control of profiteers and impugning the motives of those conducting the war against Prussiaism, she became a source of danger, all the more so because of her position as the wife of a philanthropic millionaire. Probably Mrs. Stokes will not serve out her 10 years. She will have learned a lesson, however, that should be of untold value to her and other irresponsible gabblers in a time of national peril.

THE NEGRO AND THE MOB

(Atlanta Constitution.)

Everybody must agree that the racial characteristic of the negro that prompts him instinctively to shield criminal members of his race is one of the things that keeps the spirit of mob violence alive in the South.

Therefore, everybody, white or black, must agree that if the respectable, law abiding members of colored society would exert their influence to remedy that characteristic, so that whenever a crime is committed by a negro other negroes would co-operate with the authorities of the law and the white citizens in finding the criminal and delivering him over into the hands of the courts, the crime of lynching would decrease and eventually disappear.

That is reasonable; and it appears simple enough as a solution to the mob law evil.

But there is another element in

The Best Policy and Safest Guide of Conduct

BY JAMES W. FAULKNER.

"He serves his party best who serves the country best," a maxim laid down by Rutherford B. Hayes, General, Governor of Ohio and President, should be kept before him by every member of a political organization in the United States. In those ten words are to be found the best policy, the purest patriotism and the safest guide of conduct that may be imagined. More could not be contained in a library of books on statecraft.

Always the aim of the political party should be the service of the nation and that which serves most and best should rightfully have the preference. There is now a call to duty sounding to every committeeman in Ohio. It was uttered by the President of the United States, who has said that, pending the outcome of the mighty battle for the preservation of democratic government, politics is adjourned. On behalf of the heavily taxed treasury he has asked that the people save their money and with it purchase War Savings Stamps.

The leaders of the two dominant parties in Ohio have given their pledges that this call from the head of the government and commander of the military and naval forces of the nation will be heeded and they have summoned each of their followers to take the field as selling agents for these small divisions of loans. Already the competition is under way, each party endeavoring to vindicate its claim of being the most useful to the community as a whole. It now becomes the duty of every partisan to enlist with the organization of his political group and, by purchase and pledge, enable his associates to win the victory. Each party should rejoice that it is permitted as a body to engage in this high and necessary task. Occasion is given by it for each committeeman to justify his usefulness to the body politic, and thus reject and overturn the accusation that only sordid selfishness governs in party organizations.

One of the greatest statesmen that the country has produced was Daniel Webster. In his wisdom, he said: "There has ever been and will always be two dominant parties in politics, and this is indirectly an advantage to the general interests of the country." Opportunity is now furnished the Democratic and Republican parties in Ohio to corroborate the Massachusetts sage and to go even farther and actually demonstrate a direct advantage to the general interests by helping to secure Ohio's War Savings Stamp quota of \$106,000,000.

INDEMNITY GERMANY'S LAST HOPE.

(Pittsburgh Gazette-Times.)

Every additional successful "drive" for money in the United States arouses anew the cupidity of the Kaiser and draws from him a fresh promise of riches for the German people if they will only suppress their war-weariness a while longer. Our bond subscriptions gifts to the Red Cross and other war funds, expose the richness of our resources and encourage the Hunnish lust for loot. But if German desire for victory is stimulated, German strength for victory in the war is not increased. The prospect, hopeless if they only knew it, of plundering their more prosperous enemies is dragging the Germans closer to financial ruin and making certain that their defeat will be of the most crushing character.

The Frankfurter Zeitung recently announced that the Minister of Finance is opposed to an income tax in Germany similar to the one in Great Britain because the indemnity which Germany will demand from the United States and Great Britain will cover the deficit. Such optimism will not hurt us. But the reaction will be overwhelming to Germany. It may be possible to finance some more months or years of war on promises of booty to be secured in the form of indemnities exacted from us, but when the hopes are finally proved vain and the Kaiser's people have to "dig" for the prodigious sums of money the government will require, they will sing a different song. Thus we have another reason for pouring out our money freely in support of the war. The more Germany is attracted by the glitter of our gold the harder will be her fall and the more difficult her restoration when she finally is compelled to surrender unconditionally.

OAK OR MUSHROOM.

(The Chairman.)

Once upon a time there was a man who planted a garden. He had never had a garden before, yet he acted quite sensibly about it.

He prepared the soil carefully, enriched it with fertilizer, pulverized it, and then deposited the seeds.

On the night of the first day, being a sane man, he went to bed as usual instead of watching over the garden to see whether the seeds were sprouting.

Even on the second and third days, and for several days thereafter, he was content to stay away, because he had faith in something else besides his own ability to prepare a seed bed and plant the seeds.

He trusted Nature. He believed that the shower which fell during the first week, and the chemical action of sun and air upon the soil, and the germs in the seeds, would all work while he went his way at other tasks, and that the tender shoots would eventually force their way through the earth even if he stayed away.

And it came to pass that the same man decided to do some advertising. He knew no more about it than he did about gardening, but the trouble was that he lacked the same faith.

He prepared the soil carefully, or had others do it for him. He enriched the soil and deposited the seeds.

He stood right over that garden

patch and a few minutes after the planting had been done, he said, "Well, why doesn't it come up? Why don't I see some results? Show me something!" And because there wasn't a crop almost instantly, that man who knows that Nature must go through certain processes, and ought to know that Advertising is as near Nature as any human activity can be—lost his patience because the blooming didn't come up.

"Show me something!" he repeated. "Let's see what it will do! I've been standing here watching that place and there isn't even a crack in the ground to show that the stuff has sprouted."

The moral is clear. Advertising is a growing process, and growth demands patience. The soil and air and rain and sunshine are needed, just as the garden needs them. And time is needed, too. For growth is never instantaneous. The quickest of all things that grow are mushrooms, toadstools, etc., and they are the most fragile. Everything sturdy in Nature represents steady growth, demanding time. And you would not hesitate to make a choice between an oak and a mushroom if you were considering Advertising as a natural process.

SPEAKING AS AN AMERICAN.

(Philadelphia Ledger.)

It is refreshing once and a while these days, when so many are talking loosely about the needs of incalculable Americanism among the naturalized and unnaturalized aliens, especially when certain groups, who have accepted all the privileges of citizenship but who are ready to avoid all the responsibilities, are not afraid to question the value of American ideals, to note what a real American says about the war. This real American happens to be Prof. Michael I. Pupin, who is a Serbian and whose struggle upward from poverty and mean occupations into positions of influence and affluence have never embittered him nor obscured his vision as to what America really stands for and has always stood for. For, speaking of the war, he says: "To America, this war, even more than the Civil War, means a struggle for the preservation of the Union and for the preservation of the Anglo-Saxon civilization which is the bases of our United States."

Were his origin not known, one might suppose that the writer was a descendant of old line Colonial families who overthrew the Hanoverians so far as our part of the continent went, and, therefore, safely American for generations. But the great thing that a Slav and a Serbian like Prof. Pupin feels this way about America from the heart. And, since no one can deny that he is an "intellectual," his hearty Americanism, true to the old standards, is a rebuke to the other group of naturalized bailing from the east and the southeast of Europe who trade on their alleged "intellectuality," and, in a coldly critical manner, as Americans by adoption, feel that they have no need of expressing gratitude to anyone for their opportunities, and hence are sympathetic toward every phase of thought that is anti-American, and even ask Americans to view this detached attitude of theirs as civic and political virtue. No wonder men like Pupin find this a land of opportunity! They not only have the right kind of heads, but, what is more, the right kind of hearts, and their Americanism rings true.

His talk was fearful intrustin' an' I enjoyed it quite a good deal so I an' Zeke we give a dollar fer to help out. So as we was a-comin' along home after the meeting we met up with Gran'ma Podnose which she had went two, an' says Zeke, "How did you enjoy the talk, Gran'ma?" she says, "Well," says she, "to tell you the truth, Zeke, I didn't think much of it nor his looks neither," she says, "Land sakes! Gran'ma," says Zeke, "That man is a Senator," he says, "He is a dignitary." "Oh well," says Gran'ma, "that don't surprise me none. His looks gives him away," she says.

Did You Know.
That tomorrow, June 8, there will occur an eclipse of the sun. There will not be another one like it for ninety-nine years. Through a sort of curved belt running in a southeasterly direction from the State of Washington to Florida, 2,750 miles in length and no more than seventy miles in width, there will be a total eclipse of the sun, which is a rarity anywhere, and especially in North America. The best positions for observing this eclipse will be in the western part of the country, in

Washington, Oregon, Idaho and Colorado. This is because the altitude of the sun will be greater and the weather conditions undoubtedly more favorable. The time of the total eclipse to be seen from any single spot will be only two minutes and will decrease as the shadow journeys toward Florida. This great eclipse will start in the Pacific Ocean just below Japan at sunrise and will sweep across the ocean, a distance of five thousand miles, touching in its swift course only two charted islands, Borodino and St. Peters. From the Atlantic coast of Florida this shadow will sweep out to sea and come to an end in the Atlantic Ocean four hundred miles beyond the Bahama Islands. The shadow will occupy only forty-seven minutes in traveling from Washington to Florida, 2,750 miles.

Needs Revision.

don't you think? I was chairman of the precinct organization and was kept very busy for the four weeks since May 1, working day and night to make the drive a huge success. I believe we are the only city of this size that has gone over with this great showing. Very truly yours, Miles S. Gregory, 318 Bradbury Building, Los Angeles, Cal.

Letter From Miles Gregory.
Editor of The Advocate.—I was very glad to read The Newark Advocate and to note that you had your big drive for the war chest. Los Angeles, too, has been busy in Red Cross work. We conceived the plan here of organizing every precinct in

the city—numbering 748—secured an executive committee of from ten to fifteen in each precinct, within the limited space of two weeks, and through our efforts got about 200,000 subscribers in these precincts, together with the industrial teams who took care of all the large corporations, and what is known as our downtown teams. We have raised in excess of \$1,500,000. Our quota was \$717,000. We went over in the neighborhood of 208 per cent—pretty good for a city of 500,000,
